LETTER OF INVITATION

Dear Colleagues,

The management of Nigeria National Accreditation Service (NiNAS), in collaboration with the Medical Laboratory Science Council of Nigeria (MLSCN), is organizing a one-day stakeholders' sensitization and capacity building workshop on ISO 15189 standard on June 24th 2019.

The ISO 15189:2012 *Medical laboratories - Requirements for quality and competence* can be used by medical laboratories in developing their quality management systems, assessing their own competence and for confirming or recognizing the competence of medical laboratories by laboratory customers, regulatory authorities and accreditation bodies.

The objectives of this training include:

1. To interact with the key players on the issues relating to the process of accreditation for Medical Laboratories on ISO 15189:2012.
2. To interact with key players on the benefits of ISO 15189:2012 for laboratories, health system and the general population.

Please, kindly find attached the aide memoire and application form for this training.

You are kindly advised to read the aide memoire which contains all the information you need for this training.

We look forward to welcoming you at this event.

Best Regards,

Keren Gerald Esemonu (Mrs.)
Head, Administrative and Finance
